OPERABLE UNIT NO. 2 SURFACE WATER INTERIM MEASURE/INTERIM REMEDIAL ACTION(IM/IRA) FIELD TREATABILITY UNIT - RLB-230-93

Ref: J. K. Hartman Itr (05202) to M. Hestmark, US EPA, regarding the SITE demo, May 12, 1993

This letter is to document the situation surrounding the missed milestone for the Operable Unit No. 2 (OU 2) IM/IRA Field Treatability Unit draft report due May 18,1993.

In a meeting April 30, 1993, S. R. Grace of the Department of Energy directed D. W. Pontius of EG&G to change direction on the OU 2 Surface Water IM/IRA Field Treatability Unit Report. He also stated a two month extension would be provided for this report. Based on that meeting, EG&G stopped work on the draft as scoped and proceeded to work in the new direction defined by S. R. Grace.

EG&G never received official guidance to make this change in direction or extend the milestone. We did, however, receive a copy of a May 12,1993 DOE letter to EPA/CDH requesting the extension on May 17. 1993.

Effective immediately, we are stopping work on this project to evaluate cost and schedule impacts and clarify the assumptions/scope of the new report approach. This information will be provided May 26, 1993, with the estimated completion of the report.

If you have any questions or require further information, please contact D. W. Pontius of Environmental Science & Engineering at extension 8616.
